When you buy from Tribune advertisements there are two lines of defence between you and dissatisfaction.

One is that the very existence of our guarantee attracts only the honest advertisers. We have to do less and less excluding every day, because fewer crooks seek admission to our columns now that our position is thoroughly understood.

The other is that if by any chance an untrustworthy concern should manage to deceive us and get its story into our columns, we stand ready to take the blame-and pay for it.

Buy from Tribune advertisers with confidence. If it happens to be just your luck to buy from the one advertiser who proves to be unworthy, you won't lose. The Tribune guarantee means what it says.
